Portfolio

Summary

Full-Stack Web Developer skilled in building scalable and responsive web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in developing API-driven platforms, integrating AI-powered features, and creating user-focused applications with strong backend architecture and modern UI design.

Skills

Languages: C, C++, Python, JavaScript, TypeScript

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Backend Development: Node.js, Express.js, RESTful APIs, MVC Architecture

Database: MongoDB, Mongoose, MySQL, Redis

Tools: Git, GitHub, Postman, VS Code, Judge0, Vercel

Core Concepts: Data Structures and Algorithms, OOPs, DBMS, Operating Systems, Computer Networks, Authentication and Authorization

Projects

CodeForge – AI-Powered Online Coding Platform

[Link](#)

- Developed a full-stack online coding platform with authentication, problem filtering, code submission, AI features, user dashboard, and discussion system.
- Integrated Judge0 API and Monaco Editor to support online code execution with accepted/rejected status, runtime, memory usage, and language-based submissions.
- Implemented submission history, difficulty-based problem filtering, user statistics dashboard, and interactive discussion features to improve the coding practice experience.

Swiggyfy – Food Ordering Web Application

[Link](#)

- Built a Swiggy clone integrating real-time APIs for restaurant listings, menus, and cart functionality with a responsive user interface.
- Implemented component-based architecture, efficient state management, and optimized rendering to improve performance.

BG-Remover – Full-Stack Image Background Removal App

[Link](#)

- Built a full-stack background removal application using React and Express.js, integrating the remove.bg API for image processing.
- Implemented drag-and-drop upload, input validation, rate limiting, dark mode, and cross-origin blob-based image download functionality.

Experience

Deloitte | Data Analytics Job Simulation (Forage)

July 2025

- Completed practical tasks in data analysis and forensic technology as part of Deloitte's virtual job simulation.

Unified Mentor | Web Development Intern

10 June 2025 – 10 August 2025

- Worked on frontend and backend development tasks using modern web technologies.

Awards & Certifications

- **AI Introductory Workshop – Certificate of Participation (2025):** Awarded for successful participation in the AI Introductory Workshop held on 16 September 2025.
- **IBM SkillsBuild – Click, Code, Create: Beginner's Guide to Web Development (2025–26):** Completed foundational training in web development as part of IBM SkillsBuild learning program.

Education

B.Tech. Computer Science and Engineering

Veer Surendra Sai University of Technology, Burla

Expected Graduation: 2027

CGPA: 8.14 / 10 (Till 5th Sem)
