Portfolio

Education

B.Tech. Computer Science and Engineering

Veer Surendra Sai University of Technology, Burla

Expected Graduation: 2027

CGPA: 8.16 / 10 (Till 6th Sem)

Higher Secondary Education (Class XII)

Bhadrak Autonomous College, Bhadrak

2022

Percentage: 81.83%

Skills

Languages: C, C++, Python, JavaScript, TypeScript

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Backend Development: Node.js, Express.js, RESTful APIs, MVC Architecture

Database: MongoDB, Mongoose, MySQL, Redis

Tools: Git, GitHub, Postman, VS Code, Judge0, Vercel

Core Concepts: Data Structures and Algorithms, OOPs, DBMS, SQL, Operating Systems, Computer Networks

Competitive Programming & DSA

- **LeetCode:** leetcode.com/u/chinmaya9090
- **GeeksforGeeks:** geeksforgeeks.org/profile/iamchinmaya07
- Regularly practicing Data Structures and Algorithms through coding challenges and problem-solving platforms.
- Strong understanding of Arrays, Linked Lists, Stacks, Queues, Trees, Recursion, Searching, Sorting,.

Projects

CodeForge – AI-Powered Online Coding Platform

Link

- Developed a full-stack online coding platform with authentication, problem filtering, code submission, AI features, user dashboard, and discussion system.
- Integrated Judge0 API and Monaco Editor to support online code execution with accepted/rejected status, runtime, memory usage, and language-based submissions.
- Implemented submission history, difficulty-based problem filtering, user statistics dashboard, and interactive discussion features to improve the coding practice experience.

BG-Remover – Full-Stack Image Background Removal App

Link

- Built a full-stack background removal application using React and Express.js, integrating the remove.bg API for image processing.
- Implemented drag-and-drop upload, input validation, rate limiting, dark mode, and cross-origin blob-based image download functionality.

Swiggyfy – Food Ordering Web Application

GitHub

- Built a Swiggy clone integrating real-time APIs for restaurant listings, menus, and cart functionality with a responsive user interface.
- Implemented component-based architecture, efficient state management, and optimized rendering to improve performance.

Experience

Deloitte | Data Analytics Job Simulation (Forage)

July 2025

- Completed practical tasks in data analysis and forensic technology as part of Deloitte's virtual job simulation.
- Applied data cleaning and exploratory analysis techniques to derive actionable business insights.

Unified Mentor | Web Development Intern

10 June 2025 – 10 August 2025

- Worked on frontend and backend development tasks using modern web technologies.
- Built responsive components and followed real-world project workflows and version control practices.
